Dear [Politician's Name],

I am writing to you as a proud member of the union and a dedicated steamfitter who has worked hard to provide for my family and contribute to our community. I have always been a strong supporter of fair policies that protect workers, secure our borders, and ensure our country remains strong and prosperous. However, I am increasingly concerned that the direction our politics have taken, particularly with the rise of extreme positions on both ends of the spectrum, is undermining our collective future.

As someone who has worked in the trades for many years, I understand the value of immigration. Immigration reform that includes a pathway to citizenship for those who contribute to our economy and society is essential, but it must be done in a way that protects the jobs and wages of American workers. I urge you to support comprehensive immigration reform that balances these needs, ensuring that new workers enter the workforce in a way that benefits everyone—without threatening the livelihoods of those who have worked hard to build our nation.

At the same time, it is vital that we avoid the extremes of the far-left agenda, which focuses on divisive issues that do not address the real concerns of working-class families. I believe we need politicians who can bring people together, seek common ground, and focus on solutions that work for all Americans, not just the vocal minority. It's time for us to move away from the "woke" culture and get back to a center that puts jobs, security, and the well-being of families first.

I ask that you show leadership by working across the aisle and supporting common-sense solutions for immigration reform while rejecting the far-left agenda that has dominated too many of our discussions. Our country deserves politicians who stand for all working people, not just the ideologies that divide us.

Sincerely,
[Your Full Name]
Local 400, Steamfitter
